Thread: [Road to 100\\$ / Day CPA \(Done in 7 Days\)](#)

Ivex - April 10, 2018, 6:44 pm

A year ago, I made an OGAds account. Spent approximately 2 hours working for it, made \$0.50 thought "lol nope" and gave up. As you can see, my problem is patience, I'm always looking for the quick ways to make money and I rarely find them. So now, I am really putting the work into it. To make it more interesting and fun for me whilst my earnings are still relatively low I'm going to turn it into a 'Journey' and by the end of this journey maybe I'll have a few things to teach on here.

When it comes to sharing my methods, one I have paid for and hence won't share and the others I will share for free or sell as I perfect them, depending on just how good they are.

Yesterday I began and made around \$7, not too bad for my first day. However, today I have scaled this to \$18. Unfortunately, although this seems like a good start, I've spent around \$30 on setting all this up. However, after today I am going to try and spend as little as possible and tomorrow should be the first day of true earning.

I will be mainly using OGAds for this project as it's a site I trust with a good layout, easy to use, etc.

First Full Day Earnings:

Halfway There on DAY 6:

3/4 of the Way There on DAY 6 Actually:

I DID IT ON DAY 7:

If you have any tips to share with me I'd greatly appreciate them until hopefully, one day, I can give everyone else tips. Thank you and here's to \$100 a day/ \$3000 a month.

Good luck on your journey, if you wouldn't mind me asking what social media platform or advertising do you plan on doing?

Social Media: Instagram, YouTube (I actually just thought of a new method today to increase earnings from YT, just gonna start it today) and ROBLOX (yeah I know but I can make an iMacros that advertises on ROBLOX groups with 300k+ kids that fall for it).

Advertising: I might try Google Ads because I have a killer keyword in mind.

If you don't mind can you answer some questions of mine bro ? I just wanna avoid reading tutorials above, I have a snapchat with active members where I can post stories of CPA links if that can make me money? I just don't know where to start from and where/who will pay me.

(Apr 10, 2018 09:49 AM)LTrade Wrote: [\[CITE\]](#) Would test out 50 pictures :) about fortniteThe best place to go to for CPA is [OGAds](#), just sign up there and go to Landing Page Request > Select Snapsneak.net and you'll get yourself a CPA page for Snapchat. Then just put on your story: 'OMG! I can spy on any of my friends accounts using this site:' post the link you get given for this page and boom dollaaaa. Everytime someone goes on that link they'll put in a Snapchat username they wanna 'spy on' and then they have to complete human verification to see it and everytime they do that you earn money. And you can earn quite a bit per verification depending on the offer they choose.

If you need any more help lemme know!

Today is my 3rd full day of doing CPA and I've earned \$50 now! I know some people make 10x that per day on CPA but it's still pretty exciting for me that I'm doing this in my first few days. Now I just need to find ways to scale and go from \$50 in four days to \$50 in 1. Upgrading my landing page saw a massive increase in my conversion ratio.

Mez444 - April 12, 2018, 8:27 pm

Great work. I might start on CPA myself actually. Very motivational thread.

I'm a quarter of the way to my daily goal!

Are you creating multiple niches to achieve this or focusing on just one?

Ivex - April 14, 2018, 4:18 pm

I'm halfway there! This is my 6th day, 5th full day (1st was mainly set-up) and I've achieved my first 50\$ in a day. I'm earning faster than I've ever earned online and CPA will be my focus for the foreseeable future. Now I need to scale my efforts to get up to that dream of 100\$ a day.

Also, when I reach \$100/day I'll sell some methods here. And give free mentoring to people who put me as their referral on OGAds.

OP what premium method might you suggest to these users who want to get into CPA... might it be my method which you are having such great success with. Great to see your earnings man your gonna make it there in no time!

DunderBamse - April 15, 2018, 12:05 pm

I'm going to do this too. I've bought so many ebooks already and earned nothing even though I spend so much time with their methods. I'll figure out a method of my own. You can send me a PM with link to the site so I can sign up with your referral link. In a couple of hours or I'll do it without.

I've done it in 7 days. From knowing nothing about CPA to \$100 in a day within a week. I'm a complete money making noob and I've done this in a week. Get into CPA and grind and you will get a huge return. I guess my next goal is \$250 a day which I hope to achieve fairly soon. I'd like to give a big thank you to my mentor, who I won't name unless he wants to reveal himself, he's given me free advice that's got me started. I managed to find my own method and it's very lucrative. I never thought I'd do this so fast. Damnnn.

And you should try. I barely invested anything into it and now I have money to re-invest and hopefully scale. So I'm sure you could too! Glad I inspired you!

I got a niche in mind, and I'm down to use your OGAds ref man.

Always down to help a brotha out, and down for that mentoring too.

Great achievement man. Gives me some confidence to give it a go.

masterfan - April 16, 2018, 4:50 am

How much you actually spend for advertising? Payout of \$100 per day means nothing if you spend \$100 for ads as well.

Isn't it crazy how this section feels dead as fuck but once someone even talks about a \$100 a day method you get dozens of people trying to get it

CPA is a crazy world that gets saturated quick as fuck

Congrats man, the next step is keeping up and scaling if you can!

Congrats man, the next step is keeping up and scaling if you can!Saturation just means there's a new method to find somewhere else haha! And thank you! I won't be able to scale this week due to the weekday drop / people back at school after the holidays, etc and I don't have much to invest. But when I get my first payout next Monday I can invest then and scale.

Thank you guys for supporting me throughout this journey. CPA has seriously taken off for me. In light of this I will no longer be sharing my earnings here, you can PM me with questions anytime (but please be specific and don't ask for my methods).

I look forward to helping you guys who have asked me for mentoring grow too. And I hope this thread has inspired a few people.
