"If the account doesn't work, will I get a refund?"

>No

Bruh what, so what you're saying is it's possible to buy this, have it not work and then not being offered a refund or replacement?

Imagine buying a candy bar at the store and it being empty, wouldn't you want a refund? It's not really fair for the store to claim all sales are final when the sale in question isn't honored by them regardless.

Kinda sketchy but GLWS though.

I understand what your saying, I sell this service on other forums besides hackforums. When you buy an account you get instructions on what to do. If you sign into his account while he is in the middle of a fortnite game do not expect to get another account because you are just going to do the same thing again and I lose accounts and money. I have no problem giving replacements on accounts if its legit.

Judge Judy - April 14, 2018, 6:45 pm

That's reasonable I suppose, seems like a customer service nightmare.

Either way you seem legit enough, good luck.
