Thread: [can I earn 1 usd per day? I have 2 pcs](#)

Account of the Gods - April 12, 2018, 11:36 am

I have 2 pcs open 14hr per day anyway cuz im using them

can I make one dollar with mining?

SIM-888979 - April 12, 2018, 11:42 am

You'll lose money by just keeping those PCs on, lol.

Quote:But I have more time for CPA if I dont work so if I dont work ill reach financial independence faster. -> proceeds to ask if he can ultimately make that \$1/day

op, you're going to lose money on costs and \$1/day is nothing - go on the streets and you'll find that

op, you're going to lose money on costs and \$1/day is nothing - go on the streets and you'll find that but i lose cost on electricity anyway, so I dont mind running mining bots

But you'll loose even more lol

Helltoy - April 12, 2018, 12:33 pm

Funny things is all of you guys tell him that he can't profit but you don't know hardware specs and you haven't asked for electricity price...

I don't know much about mining, but maybe he has GPU like RX580 or he doesn't need to pay electricity.

"don't judge a book by its cover"

OP post your specs and then you may get exact answer.
As well most likely you can't gain profit but take a look at:
