Hey everyone! works is back at it with another Freebie Friday for you all to enjoy! This week we're bringing you a pack of stock images. I've gone with a urban/city theme this time, so you'll find 10 high quality images of cityscapes/city lights/neon lights/urban environments. Note that these assets are not created by works, and thus you should always adhere to the original creators' terms of use. We will never knowingly leak private or paid content for free; our offerings are simply high-quality, free resources. Please be mindful of any licenses associated with these files, especially if you plan on using them commercially.

Please request what you want works to share next week: would you like gradients? Fonts? Brushes? works will share whatever you feel would help you improve the most.

[Find out more about works here.](#)
