Thread: [If you commit crime 90 times, you'll get caught only 45 times](#)

Enzio - April 15, 2018, 2:33 pm

Because $\sin 90 = \cot 45$.

This is how politicians avoid jail time.

And if you commit crime 0 times, you'll get caught 90 times because $\sin 0 = \cot 90$.
This is why cops shoot people for nothing.

Helios :) - April 15, 2018, 2:42 pm

hahaha u mad my day bro maths xD

This is science. Not math.

Account of the Gods - April 15, 2018, 3:04 pm

cops shoot people for nothing because they are testosterone driven criminals, because they are allowed to do so, because society hates them, so they have to put that anger out on someone, and because (not always) "he could be trying to reach for weapon", but usually thats bs lol

write on YT arizona police shooter or aggressive police in usa or whatever and u will get hours of violent police in USA. whats best, it only happens in usa (along with school shootings). nowhere in other civilized parts in the world. no school shootings and no violent police

Deal - April 15, 2018, 3:04 pm

If you get caught 50% Of the times you commit crime, then you're a stupid ass criminal.

SIM-3609092 - April 15, 2018, 4:24 pm

This is such a shit post I can't even... Oh well! I guess we all want that "Lounge Head" award.
Good luck fellas! Catch you next month!

$\sin 90=1$

$\cot 45=(\cos 45/\sin 45)=(\sqrt{2}/\sqrt{2})=1$

Maths dude ...

selfmademillionaire - April 16, 2018, 7:42 am

I am sure I made crimes more than 90 times and I got caught 0 times. Math is broken

That's not a very nice comment friend, I'd be hard-pressed to comment about how you're a disgrace to all Middle Eastern English majors, but I'm just not that kind of person.

stay woke

Omise - April 16, 2018, 11:17 am

I've found actual proof that your calculations are wrong. This man has hijacked one hundred New York City trains and has only been jailed 30 times. What now big boi?

This just proves that 30 equals 45, OP's calculations cannot be wrong because $\sin 90 = \cot 45$.
