Application

What position are you applying for ? If "Writers" what topic ?

- I'm applying for a Writers position. Topic is either Vices or Psychology.

Why do you want to join?

- It would be great to work on this monthly HF magazine. I have a lot of knowledge I would like to share as well as upcoming subjects regarding either Vices or Psychology.

In high school I also wrote the monthly magazine of our school, had a lot of fun doing it and got great feedback.

Do you understand this isn't an easy task?

- I fully understand, it has to meet up to your standards. It can take some hard work, but the result is incredible.

Are you committed to do this every month ?

- I sure am, would love to spend some of my time each month to write a good article for the magazine.

I hope to hear from you soon!

Good luck to everyone applying for this. ?

[BLANK] - April 16, 2018, 7:54 am

This should be an exciting project, I hope we get enthusiastic and knowledgeable people. Good luck to all the applicants.

What position are you applying for ? If "Writers" what topic ? Going to apply for both Writer and Editor

Why do you want to join? Browsing the lounge soon gets boring. It would be a cool accomplishment to have a written, edited and published article put out to members of the community every month. Not only that but I want to expand my skillset and start putting out articles professionally as side-income.

Do you understand this isn't an easy task? I think if you really put your mind to something that you enjoy anything can become 'easy'. I would like to be in a position where my work I put a lot of effort into can be seen by a group of people that will appreciate it

Are you committed to do this every month ? My after work time consists of gaming, working on side projects and chilling out. If I can put my mind to something more productive then I can without a doubt become committed; even on bad days.

Edit:

Topics would be Hacking, movie reviews and other computer technology.

What position are you applying for ? If "Writers" what topic ?

I am applying for the "Editors" position.

Why do you want to join?

I'm can be an extreme "grammar nazi" at times, I can easily pick out spelling, punctuation and grammatical mistakes quickly, even extremely small ones. I feel that I fit the criteria for this position perfectly.

Do you understand this isn't an easy task?

Yes, I understand that this task could be challenging at times and I sometimes may not be interested in the article I am editing, though I will not let that prevent me from fulfilling my task.

Are you committed to do this every month ?

Yes I am more than happy to do this every month, I would do this multiple times a month if needed.

Per The Worker's request via PM:

What position are you applying for ? If "Writers" what topic ? : Writer, specifically science/technology/cryptocurrency

Why do you want to join?: I saw a unique opportunity brought up by The Worker himself via a PM to me. I need a new way to engage on HF as I'm spending all of my time in the crypto section. I'm currently a part of a crypto group but its entirely dead.

Do you understand this isn't an easy task?: Nothing in life is easy if its done right.

Are you committed to do this every month ? : 12 times a year? That's it?

Jake???????????????? - April 16, 2018, 3:17 pm

What position are you applying for ? If "Writers" what topic ?

I'm applying for the Editor position, I can edit any article that's put in front of me.

Why do you want to join?

Because I'm tired of HackForums groups being misused and I think it's time to do something about it. If we can collectively start actually doing activities on-site, participating, and putting forth real effort maybe we can help groups become great again.

Do you understand this isn't an easy task?

I'm well aware this isn't an easy task, which is why I'm applying. If it was easy it wouldn't be worth it.

Are you committed to do this every month ?

I have a stay at home job, so I can commit plenty of time to this every single month needed.

Vegeta - April 16, 2018, 4:19 pm

What position are you applying for ? If "Writers" what topic ?

- Writers, specifically sports but can also do gaming/music.

Why do you want to join?

- I am interested in bettering the community by collaborating with others in the group to release this magazine. I would love to write an article on sports for the community to see and to improve my writing skills further.

Do you understand this isn't an easy task?

- I understand and am willing to push through it. Hopefully we can make it easy as a group after we

get our chemistry down as a group.

Are you committed to do this every month ?

- Yes, I have plenty of free time on my hands and am willing to do what it takes to complete my part as well as help others with theirs if need be.

Thanks, and good luck to everyone else applying. Seems like a great group and I look forward to what it brings us.

Herbo - April 18, 2018, 9:33 pm

What position are you applying for ? If "Writers" what topic ?

I am applying for either artist or writer, I would be very interested in doing either of them.

If I get accepted for Writers I would mainly be interested in doing sports but would also be open to doing another topic if needed!

Why do you want to join?

I would love to join as I have not been a member of a group for a long time and it would be nice to feel apart of a community again.

I also enjoyed my time in Writers when I was apart of the HF News and think it would be fun to do something like that again!

Do you understand this isn't an easy task?

Yes I understand this wont be an easy task, but I feel like my previous experience with the HF News team will help a-lot.

Are you committed to do this every month ?

Yes, I have plenty of free time and would love to help out with this project!

Knife? - April 19, 2018, 11:10 am

What position are you applying for ? If "Writers" what topic?: Music.

Why do you want to join?: Writing is one of my biggest accomplishments. I would do anything to become a big writer. When I write it let's my feelings out when i'm not able to talk about them. Writing on a piece of paper is always fun and always helps me to release some stress. I also like to think of stories to write about. The greatest feeling is sitting somewhere and you see something interesting that you can write about. I have been a writer since I was younger and always have had passion for it and would love to go further with it. But an accomplishments I have is earning some awards and trophies for my writing. Also when I was in school I attended the UK Radio 2 500 Word piece and became 7th out of 240,000 students across the country. That was an amazing accomplishment for me and will always remember how far I got in it. When I was younger, a few years ago I had a School Band which did some RnB Punk Music, I've moved onto EDM and Hip Hop lately because that's the genre everyone listens to in this current generation.

Do you understand this isn't an easy task?: Of course it isn't. I would do anything to support the group in any way.

Are you committed to do this every month?: Yes, no issues at all.

What position are you applying for ? If "Writers" what topic ?

- The Samaritans seems like a genuinely good group, which is interested in bettering the HackForums community. Which is really saying something considering the state of most groups on the forum today.

I am not sure if I was accepted or not since my PMs are ignored and yet to be added. I am ready to join the journey whenever you are and I am still up for the job. Add me when ever you get the chance to and i'll start working.

Thank you.

sssniwerwolf - April 28, 2018, 3:20 am

What position are you applying for ? If "Writers" what topic ?

I'm applying for the Writers position. I would like to be a writer for the Vices or Hacking topics.

Why do you want to join?

Well I'm not too familiar with the Samaritans group or the members within it, but I'd love to learn more and possibly show what I have to offer. When I login to hf I spend most of my time in either the crypto, botnet/advanced hacking sections where I can help others and learn at the same time. I also browse the lounge section when I get home from school or when I get bored. I'm not a professional writer by any means, I helped someone with a writing assignment in the rewards and small favors section and that is about all I've done with my writing abilities. This would be a great opportunity for me to meet new people and talk about some interesting topics. :)

Do you understand this isn't an easy task?

Yes, I understand that this isn't an easy task but the more you know about a topic the easier it is to write about it.

Are you committed to do this every month ?

Yes, I am fully committed to do this every month. I always have free time after school or on the weekends so when I receive a task I will make sure it gets completed.

Do you understand this isn't an easy task?

I understand this isn't a easy task, but i believe that together we can make it easy and make this one of the best groups on HF.

Are you committed to do this every month ?

Yes i have plenty of time, so i can make the best quality.

pms - April 30, 2018, 5:18 am

What position are you applying for ? If "Writers" what topic ?

Writing has always been a big passion of mine, and I pretty much love writing about everything happening in the world currently, mysteries, world events and more. I'm down to write about anything I find interesting and want to learn more about, I'm working on knowing as much as possible and I find writing about things definitely helps with that.

Writing is very peaceful for me so I can't mind writing and reading a lot.

Why do you want to join?

A so called "philosophical" group is very unique when it comes to hackforums and I definitely think it sounds different and exciting which

makes me want to see how the group and the people in the group is like.

It will also allow me to write more and get my writing activity more active.

Do you understand this isn't an easy task?

I can understand that yes, but I am willing to take that challenge.

Are you committed to do this every month ? # As long as I'm not in the hospital I'm committed to this project and I will try my best, you have my word.

Kind regards, pms.

What position are you applying for ? If "Writers" what topic ?

I would love to apply for "Writers" position and more specifically for the topic "Music".

Why do you want to join?

There are multiple reasons why I would love to join.

Yes, I admit. English is not my first language, but I managed to get a C2 level certificate when graduating from High-School, and I would love to further improve my English and sharpen my vocabulary by being a part of Samaritans.

Music has a huge meaning in my life and throughout my life, I have listened to all kinds of genres, ranging from K-Pop to DeathMetal to Rap.

I love telling people things they don't much more. And I believe If I would be a member of this group then it would be easier to achieve a larger audience and thus getting more reviews on the work I put in.

My negative side is that I love smoking weed and I sometimes write complete nonsense, but that is not going to happen with the articles I'd write under the Samaritans flag. (I promise.) ?

Do you understand this isn't an easy task?

Of course, I do. I find the fact that this is not going to be easy self-explanatory. And I for sure love a challenge.

Are you committed to do this every month ?

I am. I would love to dig deeper into the field that means so much to me - music and thus share it with the rest of HackForums. I would also love to gain knowledge in other fields that you guys cover.

I look forward to hearing back from you :)

M L T - May 10, 2018, 2:09 am

What position are you applying for ? If "Writers" what topic ?

- I am applying for the hacking position. I have a very solid knowledge in web application security and I can cover concepts that aren't yet fully explored, allowing for members of HF to explore new areas and expand upon them. If you have any questions about my previous experience with hacking or writing relating to hacking, then feel free to ask away. I've contributed to OWASP among other projects. Feel free to quiz me on what I'll be writing about, I have some very interesting topics in

mind.

Why do you want to join?

- I'd like to make new contacts and meet other members of the community, I also have a passion for writing and sharing knowledge. Ideally though, I'd like to become part of this community and share the skills I've picked up over the years.

Do you understand this isn't an easy task?

- I understand that this will be somewhat challenging because if accepted I would want my content to be of a high standard, meaning there would be a lot of research involved and proof-reading and such other things :)

Are you committed to do this every month ?

- I can easily push out one article per month. I run my own project and several blogs but I can still set time aside for this. Despite saying I can do this 'easily' I will ensure that anything I publish is unique research and will be thoroughly proof-read and cross-referenced with multiple sources so I'm stating facts as opposed to mere opinions.

Don't let my lack of posts discourage you. I've contributed to GNY and also have a current submission in CFP for Phrack. In addition to this I contribute to OWASP among other web security projects that involve educating the masses. I think I can apply my webhacking abilities here and create not only engaging content, but also content that will cover previously unexplored concepts within the field of information security.

I hope to hear back from you,

- MLT.

Nostalgic - May 13, 2018, 3:36 am

What position are you applying for ? If "Writers" what topic?

I'm applying for writer, I'd like the topic gaming as I'm a gamer myself. I love talking about games, new release & more.

Why do you want to join?

I'd like to do something for the HF community, I'd say it would be great to have a monthly topic about games. For an example a new game is released, I'll give it a review so other HF members might want to buy or they know it's not worth their money.

Do you understand this isn't an easy task?

It depends on how you see it, it's easy typing something the hard part is what and building something around it.

Are you committed to do this every month?

If I'm accepted I'd write one article monthly but I'd probably post small topics around gaming for an example the cheating situation in CS:GO, early access games scamming people for money only making an half done game.

What position are you applying for ? If "Writers" what topic ?
Artists.

Why do you want to join?

I am interested in joining because I am so fond of HF News. I've only joined recently, but have read several pages of HF News editions, and it just intrigues me how a forum could build such a community with individuals who don't even know each other joining together to make one thing happen. I would love to be a part of the Samaritans magazine helping out with whatever tasks at hand.

Do you understand this isn't an easy task?

I understand completely, although what's needed to be done, must be done. In this specific case, I would be more than glad to dedicate a substantial amount of time into the group.

Are you committed to do this every month ?

Of course, this gives me more than enough time to meet my own deadlines, having this be a monthly thing would allow me to not rush my work and complete it with care.

WhoseLineIsItAnyway - May 29, 2018, 11:34 pm

What position are you applying for ? If "Writers" what topic ?

I'm applying for the Writers position group. I'd like to write for the World News topic.

Why do you want to join?

Writing is a good skill of mine. I believe that joining the Samaritans under the Hack Forums Magazine will allow me to build on my writing skill constantly. While I could write freelance, giving back to Hackforums is appropriate as the community is friendly. My goal in joining would be to entertain the people of Hackforums through articles that stray away from the idea of hacking, and more towards real world issues.

Do you understand this isn't an easy task?

I understand that it is not an easy task, but I believe it will be beneficial to attempt to write monthly.

Are you committed to do this every month ?

I can be committed to write an article every month, if not more.
