Thread: [Show Buy History](#)

Omniscient - April 17, 2018, 5:42 pm

<https://hackforums.net/showbuys.php>

This is currently in beta for Ub3r only. It will display your purchase history on HF. It is not 100% accurate as it doesn't provide old orders previous to May 2014. Nor does it provide any order history if you paid me directly.

Feel free to test and LMK if there are any questions or bugs.

When we're comfortable with this being bug free I may expand access to other paid groups.

Enjoy.

Smile? - April 17, 2018, 5:44 pm

Clicking info for the 3P1C upgrade currently shows the R3kt userbar for me.

Interesting addition, it incentivises users purchasing awards and site upgrade for others further.

VirtualFrost - April 17, 2018, 5:48 pm

When you say not 100% accurate, will we see purchases we didn't do? Apparently, I purchased an upgrade for someone, can't say I remember ever doing that though.

More incentive to do awards then. :)

So now who wants an award for having more than \$5000 spent on HF? Or should I make it less? I was thinking maybe a nice use for the Diamond of Evil.

Quote:Bitcoinage only showing as \$1.
Unfortunately before Bitcoinage was \$250 USD it was set to 1 BTC which we don't have pricing for. Let me see what we can do to fix that some. For now all Bitcoinage buys have it set at \$250. Fixed the OMC and LTC issues too from when those were set at fixed LTC/OMC prices.

1k to 5k seems like a proper step for a new milestone, and 5000\$ for a badass award like that definitely seems worth it. Will become one of the most rare award HF has... rightfully so.

Different types of milestones would be nice, with each milestone having a award for example:

Small contributor: \$500 in total payments

Medium contributor: \$1000 in total payments

Large contributor: \$2000 in total payments

Grand contributor: \$4000 in total payments

If this happens I can buy some more awards as I'm close to \$500

And maybe a award collector awards too like.

Having more than 10 awards gives you the small collector award

Etc etc.

Pretty sure Vitani's Mate would enjoy this

I need to figure out if it's realistic since I don't want the award to be unattainable. Just hard to obtain and rare.

(Apr 17, 2018 09:54 PM)Omniscient Wrote: [\[CITE\]](#) I need to figure out if it's realistic since I don't want the award to be unattainable. Just hard to obtain and rare.

The issue with that, is for those who purchased things prior to however long ago the page actually shows, won't get the award (that's assuming it's going to be automated).

None of my upgrades show, as they were purchased >2014 (not that it's relevant to me as I haven't spent nearly as much as is required to get any award).

Plus, as for the BTC award, which I'm sure is where a nice chunk of most people's spending show, probably varies greatly as well due to the cost of the award changing over time.

So I imagine it would be harder to calculate how much those people actually spent on awards in total. Maybe I'm wrong, just trying to think over what you're probably going to have to deal with logistically.

Vitani's Mate - April 17, 2018, 10:32 pm

It says I spent \$1122 on HF but it is missing the GA award. I know that I have bought awards that are different crypto through other people.

But you purchased the award through Xerotic, so he wouldn't have an exact price without consulting Xerotic anyways correct?

That's my point with the previous post, I don't think it would be logical to grant awards for how much money you've spent on the site (other than purchasable awards themselves that is), as I don't see how it would be possible to automate the process. Unless Omni doesn't mind sifting through a bunch of PMs and calculating how much people have actually spent in total.

This is awesome, shame it doesn't show a lot of the stuff though. Judging by my page and then other payments i've made directly and the payments before 2014, we're talking a big number for me haha.

However HF has helped me make much more than that so I couldn't complain if I wanted to.

27 - \$617

spent about 600\$ well done!

Omniscient - April 17, 2018, 11:47 pm

I know the numbers are not 100% accurate. Payment systems have changed over the years as well as prices. Example is MD used to be an accumulative award. And initially most people got the BTC award at under \$200 but some did pay more than the \$250 now. OMC award and LTC award were both at one point based on a set amount of crypto vs a USD amount.

What we have is what we have. It is what it is. No sense in complaining about it. It's like crying about 1/2 your post count being pruned.

And if you spent a lot pre-2014 that's nice but that is over 4 years ago and I don't really see why you should be rewarded for that. I want to find ways to reward current and new activity.

I want to add on to this (kind of)

Imagine where you get a "fraction" of this award's design based on a milestone. Once you hit the highest milestone, you get the final piece. It could be pieces of a pyramid or some other "building block" based award/icon. It'd definitely give people the urge to "finish what's incomplete"

Just a thought, what do you think?

No, it would not. Members already get enough recognition from the Awards. There is no direct need to display their actual amounts spent. And some do a lot of business here with stickies but never donate. Others donate who do no business here at all, but instead just wish to help the site to run.

I am not going to public display donation information. This is meant for the members. I think it's a shame members are posting how much they've spent. This is what's wrong with the younger generation. They have no real concept of what privacy is. The "look-at-me generation" doesn't understand what it is to be private.

I couldn't agree more. I can't imagine what it's going to be like in 20 years when people who have grown up with social media their entire lives try to run for office and someone brings up their ridiculous public showboating. You would think that people understand that posting something online makes it never go away. Then again, that would imply that people do think which might be a false assumption sometimes.

Some of you are complaining about the BTC price fluctuation but I have to ask, how many started to get into crypto because of HF or maybe opened a Coinbase or exchange account just so they could upgrade on HF and that got them started or interested in crypto.

If you spent \$20 in BTC to upgrade on HF 4 years ago and it's worth \$500 now then boo-fucking-hoo. Why didn't you get \$100 in BTC and hold some?

True, but I do feel very bad for those who bought a group years back and held onto it, they have literally lost around \$100,000, but maybe they would have sold that crypto anyway.

You got a point there lol, i remember paying with BTC for all kinds of things in the past, it never crossed my mind that it would be smart to just hold it. Now i can still try my luck with alts tho ?

Joy - April 18, 2018, 1:27 pm

Nice addition. Makes me amazed at how much btc as grew over the year and if i held onto some

cryptos. Hf has helped me alot tho. I wish i had an irl job so i didn't have to think to donate to the site.

Cyber Coder - April 18, 2018, 1:52 pm

over 8k paid since 2014, so it should be over 15k\$ since the beggining .Well, you deserve that money, sticky money can be easily recovered .

Not to bothered about losing money from the bitcoin price when I first upgraded, I mean no one really knew it was going to grow so much.

people can do the upgrade for you. you dont need crypto as im sure you have a pp account.

J?son - April 18, 2018, 1:56 pm

Haha after seeing this thread I completely forget I ran an EPIC giveaway and was like "WHEN DID I BUY THOSE"

drugs, man.

NA Riven - April 18, 2018, 3:08 pm

It only shows Ive bought Uber but Ive bought Leet aswell.

funtela - April 19, 2018, 8:35 am

holy crap

ven0m - April 19, 2018, 10:03 am

Only bought Ep1c with OMC. Rest of the privilege features are gifts from various kind members. Thanks. ?

Zexo - April 19, 2018, 10:08 am

When ur rich bitch is worth a little bit now with the price of btc.

Wow I just seen this and based off the calculated values I've spent quite a lot not sure I even wanna know how much I spent including my group and random donations.

This is epic

We should see a hall of fame here , the first 20 , it will encourage some members to be on the TOP

of the list.

Nice job @Omni as always

In my opinion, it shouldn't be displayed. If we're talking about who has "spent" the most in general.

But hall of fame for upgrades, YES! All for it. Am sure FamousHater will be waaay up there. He upgrades memebbers more often than anyone I know.

I don't think it should be a contest to see who can spend the most money.

Nice job @Omni as alwaysThat's the whole point of this younger generation.

Look at me! Look what i did.

As Omni said in this thread.

You don't want to display members spent history but it's fine to display there upgrades spent? Change your user name again.

This comment has to be the most logical reply yet.

I Agree, How much a member has spent is no ones business but there own.

This could most possibly be your best opportunity to implement a "Biggest ePenis" award.

I had no idea so many users have done so many upgrades, let alone that you logged all of this.

It makes sense now.

He's actually contemplating something like this for the Diamond of Evil (or possibly a new award?).

The bar could be at 5k to receive the award. Read this for more info:

This is currently in beta for Ub3r only. It will display your purchase history on HF. It is not 100% accurate as it doesn't provide old orders previous to May 2014. Nor does it provide any order history if you paid me directly.

Feel free to test and LMK if there are any questions or bugs.

When we're comfortable with this being bug free I may expand access to other paid groups.

Enjoy.

I bought L33T around the end of 2009 and I upgraded to Ub3r right after in 2010. Sad that those orders aren't displayed. On the flip side it does show my Ep3c upgrade on my account.

I have given omni thousands, did not expect that lol!

Kill Joy - April 23, 2018, 10:50 am
