Thread: [\[Selling\]C++ Builder / Stub](#)

Larry Lovestein - April 18, 2018, 9:11 pm

Got a spare project I freelanced ready to sell due to client not paying in the end and backing out. If you want screenshots and are interested PM me, looking to get rid of it for a good offer.

Stub; C++

Builder; C++

Features;

Binder, Installation, Start-up, Melt, Icon Changer, Updater, News Section and some more.

I can revamp the GUI of course as I've coded it so for an extra fee I can do another design for you.
