Thread: [Origin PCs](#)

Eccy - April 19, 2018, 3:57 pm

Do you think it's worth getting a PC from Origin? You can set up a monthly payment plan which is pretty good for me since I don't have enough money to pay straight up, though I know they're pretty over priced

webdev77 - April 20, 2018, 11:42 am

Absolutely not worth it. My recommendation is to start putting aside money every week until you can afford it. You are going to end up paying twice what its even worth.

Yeah I decided to do that, I realized how much they over charge when I saw it's \$50 for CPU OC and \$75 for GPU OC ?

yeah like he said it isnt worth it at all if you just save up the money for individual parts and buy them when you can and build eveyrthing yourself you would be saving a lot of money.
