Time to setup: I purchased at night, so I didn't get a chance to setup until the next morning. By the time it was said and done the whole process took less than 6 hours (I had a few hiccups that were on my end not the sellers.) I am sure anyone else could have it up and running in way less time.

All in all a pretty awesome guide, was easy to follow and clear with everything you need to do. @Sandeman has assured me that he will continue support this method and continue to try and evolve it (which he already has from V1 to V2).

Other than this method potentially getting saturated I will still give it a 9 out 10! ?

First, I would like to say thanks for Sandeman for selling this method.

The method is really easy to setup and it takes no longer than 1 - 2 hours to do so.

The support is A+, really nice and patience guy!

He will help with everything until you are satisfied.

(Apr 5, 2018 01:27 AM)Prox Wrote: [\[CITE\]](#) I was given the opportunity to review Sandeman's method today and was not disappointed with the content.

The instructions were simple, clear, and to the point without page fillers or unnecessary information. You'll be surprised as to how uncomplicated he makes it compared to other ebooks/methods sold here. He even adds a helpful mind-set direction to get you to think outside the box and put this to use in even more ways than on paper.

As for the content, I can't see any reason why this wouldn't be earning you constant income; as per most working methods, it doesn't require a great amount of work but it's obvious you'll increase your earnings by putting in a little more time.

I actually think it's being sold too cheap for what you can do with it. Better and more original than most ebooks on sale.

(Apr 5, 2018 03:58 AM)FINESSE Wrote: [\[CITE\]](#) Thought I'd be the first to purchase this and get the ball rolling. It is very simplistic, nothing over-complicated and literally takes under 15 minutes to set up. From how its looking currently it is profitable but obviously I don't want to bite my tongue so I'll update my post once I get any earnings!

(Apr 12, 2018 02:23 AM)FINESSE Wrote: [\[CITE\]](#) Vouch for Sanderman. This method will earn you some serious cash but it's not sustainable and will come to an end but you'll definitely make 10x if not more of what you put in.

Friend told me about this, im more focused on learning to code better right now and im currently comfortably middle class, but i just thought
you should know ever since my friend K started this whole thing, he has been buying me steam games and fortnite vbucks, so thank you for that, but also i cant go
10 mins in discord without him saying how he is "Basically Like Sh--ing Gold Bricks" or "buying more \$300 cigars after my next run through"

So it may make you some decent cash, but please, while in discord with your friends just help them build a base for the guided rpg, or tell them weather there planting A or B.
we can hear about your gold crapping escapades in the lobby.
thank you.
