Thread: [Scanning Servers](#)

IzzyMichiel - April 21, 2018, 4:03 am

Hey,

I am searching for some scanning servers to scan amp lists.
Does maybe anyone got a host that won't suspend and not overpriced? :)

Thanks,

Thanks,

Various users have RDP shops that would probably fit what you are looking for. I would use the search function.

I know them. I think they are doing a really good job on what they do but think it's a bit too expensive for what I am looking for.

Thanks,

Some things like this is exactly what I am looking for!

Thanks a lot for sharing sir! Didn't you got any suspensions? ?

Thanks,
IzzyMichiel

I wouldn't buy servers you plan to abuse without bitcoin lol

God_of_Gods - April 22, 2018, 12:30 pm

use orcus instead, its a good malware

The 100mbps servers are too slow. You'd need to buy a 75 one
