Thread: [A userscript to interact with Amazon Prime Music/Pandora](#)

mrnapolean1 - April 21, 2018, 7:56 pm

Is it even possible to create a userscript that would interact with the player periodically so it doesn't give you the "Are you still Listening" message?

Would be a huge plus if it could work with both Amazon Prime Music and Pandora. ?

Stendoh - April 21, 2018, 8:21 pm

I'm pretty sure this can be done op! Hope you find someone to help you

I hate having to go and click on "Yes, Im still Listening" every 20 minuts or so. I don't know why they cant just keep the music playing till I decide to pause or stop it.

(Apr 22, 2018 02:04 PM)xadamxk Wrote: [\[CITE\]](#) Yes, it is entirely possible.

I'll look into it when I get time tonight/ this week.

You're awesome! Just something to interact with the player so it thinks you are still there. But work your magic! ?

(Apr 27, 2018 05:04 PM)xadamxk Wrote: [\[CITE\]](#) Alright so I don't use Pandora on desktop so I looked at existing scripts.

I found one but it limited it to 3 replays, so I stripped the code out and added it to my github.

Give it a shot and let me know how it works.

Going to give it a try. Thanks!
