Thread: [Could someone look at these scans for me?](#)

ChillFam - April 21, 2018, 10:49 pm

I think I may be infected. I ran the FRST Scans and here are the results.

FRST.txt: <https://pastebin.com/PMrp6HYF>

Additional.txt: <https://pastebin.com/vZVZeTQF>

Thanks for the help.

I took a look and nothing really stood out to me, but at the same time, a simple re-installation of your OS after backing up your documents offline beforehand will only take a few minutes, so I would suggest you do this to be on the safe side.

You are right. I decided to 0 write the entire drive on my laptop. I will also run a frat scan on my desktop which was connected to the same network.
