Thread: [Spotify Premium alternative Method \[STOP PAYING FOR PREMIUM\]](#)

Wake - April 22, 2018, 12:36 pm

Ok so I have seen a few posts around here offering premium accounts and so on and YouTube videos showing how to get Premium on your account but the accounts either last a week or they do not allow you to play music offline which is all anyone really wants Premium for.

So I have come up with an alternative to Spotify premium that works exactly the same no ads unlimited downloads and your able to play downloaded music offline at any time.

Note this only works on Iphone and may only work for certain firmwares I have only tested it on the latest ones released and have not had a single issue.

If you would like this post here and I will PM you

I have tried to make the method as easy to follow as possible but if your having issues feel free to message me and I will run you through the setup.

Have fun and Enjoy.

Why do you deserve It? You joint the forum In 2017 and have made one thread since then and near enough all of your posts are In the Free Services and Giveaways section. If I feel you have contributed to the forum you will get this It has nothing to do with how new you are.

I joined in 2017 but started becoming active a few days ago, don't worry I'm going to contribute more the coming period, I even just purchased for an account upgrade and it's processing. ^_^

So I have came up with an alternative to Spotify premium that works exactly the same no adds unlimited downloads and your able to play downloaded music offline at any time.

Note this only works on Iphone and may only work for certain firmwares I have only tested It on the

latest ones released and have not had a single issue.

If you would like this post here and I will PM you

I have tried to make the method as easy to follow as possible but If your having issues feel free to message me and I will run you through the setup.

Have fun and Enjoy.
may I've the method and thank you.
