Thread: [What can I do about people calling me a scammer with no proof](#)

blackops106 - April 23, 2018, 5:55 am

I help people on here sometimes free of charge and build rep based on their experiences with me. I have just been given negative rep by someone who claims I'm a scammer and never opened a scam report but claims they saw proof. Cryzon services accused me of being someone else with no proof and gave me negative feedback as well for same thing.

Why are people so heartless? All I'm trying to do is help people here I hate scammers myself I've been scammed before so I don't understand why especially if they haven't got proof to back it up what can I do here?

You just only got one negrep from the 'deal dispute', try to resolve it with him asking what proof he gave you.

Crying about it in public isn't gonna help you

Read the help documents rules regarding calling people scammers and follow the instructions there.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

I've dealt with that user personally as well so I know EXACTLY what you're talking about.

I have had a similar experience. Just ignore it and move on.

Read the [Help Docs](#). If they call you a scammer without linking a dispute created by them it's eligible for being removed.

That ^.

It's normal here for regular members to be harassed by neg reps and there is no site policy against it(with few serious exceptions) , so deal with it

I think the user who gave negative reputation and calling you scammer without appropriate proof is banned.

I didn't PM you AND call you a multi at the same time, that'd be meaningless. You're just spewing BS, off-topic anyway.

Another big rep-related issue is people in groups gang-repping.

If you ain't-a scammer then you have nothing to worry about?
