Thread: [99 Fletching \(Botting \) Progress Thread](#)

GamersGodlyReturns - April 23, 2018, 6:20 am

Hello guys, This thread is to post progress of my 99 Fletching.

I started last night, and in about 10 hours or so, I'm already 70 fletching.
I been stringing all the way up so far. and I'll start stringing yew longs now.

Got to string 33k Yew Longs till 85 fletching right now. [Not Completed]

I will update when completed, and post the next progression goal. This isn't gonna take long, I'm just showing others in this thread that it's easy to bot a 99, and make Runescape Gold in the mix. I should make about 10m? Maybe a little bit more.

Thanks for viewing guys, Also... I cannot post images it won't let me :/ Sorry guys.

What script are you using? Just curious.

LeBron - April 23, 2018, 1:07 pm

I got 99 recently to on my botting account, It's pretty quick/easy. good luck!

Yes I'm using Acerd's Fletcher 3.1 from OsBot. Also, I'm 77 fletching currently. :)

I just hit 85 Fletching! All from lvl 1 within 24 hours. Pretty crazy. Time to string 100k magic longs to 99 now. :) I've already made 5m.

i did it legit to like 70, after that I botted for 5-8 hours a day. I took like 20-30 minute breaks randomly.
