fast way:

open p.o box

have your amazon wishlist and other stuff send to the po box

extremely safe way

buy bitcoin/xmr

go to a darknet market

get a fake id made

or find your local fake id maker

open p.o. with fake id and lease you typed up yourself on the net

have gifts,ect sent to po box

Just make a cashapp with your real name, and then transfer from fake to real cashapp.

Just a word of caution. I use to take cashapp. After 3 weeks, it want's me to confirm identity with name/birthday/last 4 of social in order to receive any more payments.

What would you recommend as an alternative to CashApp, then?
