Thread: [I hate logic](#)

Mr.Miyagi - April 23, 2018, 7:44 pm

I fucking despise logic. yes the "rapper." Not only is his music overplayed and overproduced, he is the epitome of fake success and talent-less fame. His songs are horribly written if you actually break down the lyrics and read what he writes you will often find no meaning whatsoever behind the words and no originality. Instead you see recycled rhymes and quick, effortless phrases which couldn't make it any more obvious that it was written for nothing more than to be a catchy hit song on the radio.

There is no art, no soul, no love, no emotion, no talent and its painstakingly obvious. He has real fans that sit up at night waiting for his next trash piece of recycled content and it makes me sad for the artists that are undiscovered, broke and put their heart and soul into their music. He is a joke to the music industry and if I hear "I feel like my life aint mine (who can relate!?)" one more fucking time im gonna blow my god damn head off.

And you know what while were all here, fuck his stupid bald head and his gay little glasses. Yea I said it.

Who else agrees?

BOBBY TARANTINO - April 23, 2018, 8:20 pm

His old albums are amazing, under pressure, undeniable, young broke and infamous. After the Bobby tarantino mixtape everything went to shit

Vegeta - April 23, 2018, 8:25 pm

I like his older music but his new stuff I'm not really a fan of. So I somewhat agree with you.

sssniperwolf - April 23, 2018, 9:02 pm

I agree logic isn't the best, imo lil pump is better

eats_sushi - April 23, 2018, 10:05 pm

fuck logic, he's copied my man joyner. who can relate?

XLR8_6R - April 23, 2018, 10:26 pm

Logic is trash tbh, how did he even get mainstream?

Vader - April 23, 2018, 10:32 pm

Older is okay, newer is completely different and absolutely horrible.

Are you serious? I had no idea.

I found out about him through Cod montages tbh lol.

Stendoh - April 23, 2018, 10:39 pm

Logic's flow is fire asf. And for the person who said he copied Joyner he didn't. Many people talk about suicide in there sons example 1-800 and I'm sorry they were both about suicide etc but doesn't mean one copied the other.

Fortunate - April 24, 2018, 12:14 am

Some of his new shit is fire though, some are... well controversial. But his old shit was very good imo.

Also, I thought this thread was about logic, and not Logic. But hey, you might as well hate logic if you hate Logic.

Just kidding.

race has nothing to do with the fact that his music is trash

John F. Kennedy - April 28, 2018, 1:00 pm

What have you listened to that makes you think this way?

I am one of his biggest fans, I've been listening to Logic for 4-5 years now.

Have you listened to his mixtape Welcome To Forever?

Under Pressure, he has some deep lyrics, he tells a story in his songs.

The Incredible True Story is very positive, upbeat, and has a positive message.

Everybody wasn't that good, but 90% of his music is heat.

Mr. Corleone - April 28, 2018, 5:10 pm

I met Logic irl, he's one of the nicest people you can talk to and real.

Manalishi - May 1, 2018, 1:28 pm

I don't know who he is, but judging by his name he doesn't sound very original.

alright well I can give you benefit of the doubt because I haven't dug through his music in that much depth. However I remember a few years ago there were some raw ass songs that I heard, but fast forward and all I hear on the radio is the 1-800 hotline song and its like damn dude how did you sell out like that

Ømen Xiii - September 26, 2018, 6:59 pm

Yeah never really been a fan of him I just can't get into it man

Yeah man honestly check out his older music it's a lot better than anything he's put out in the last 2-3years. Hoping his YSIV Album he is releasing Friday will actually be good and not gross like his newer shit.
