Thread: [Watch free live tv on your iphone/ipad! Step by step](#)

SIM-3487621 - April 28, 2018, 9:41 am

Hello HF members. Today im going to show you how you can watch free live tv on your iphone or your ipad (Sports channels and many more included). Im pretty sure this will work with any ios version!

1. Go to this website from your iDevice [Click here](#)

2. Tap on "DOWNLOAD APP"

3. It should pop up a window saying "This website is trying to open settings to show you a configuration profile. Do you want to allow this?" Tap Allow

[Like this](#)

4. Now it should redirect you to your settings in which you want to tap on "Install" on the top right corner. If it prompts you, insert your passcode.

[Like this](#)

5. If you go to your homescreen you should see a new app called TweakBox. Open it

[Like this\]](#)

6. Next, within the app tap on the "Apps" section on the upper part of the app

[Like this](#)

7. Now tap on "TweakBox Apps" in the middle

[Like this](#)

8. Next scroll down until you find an app called "Slick TV". Then tap on the install button. Afterwards a window should pop up and just tap on "Install"

[Like this](#)

9. Once it is done installing a new app called "Slick Tv" should appear on your homescreen. Open it and just select what channel you would like to watch.

Hope you found this tutorial useful! Feel free to message me if you have any questions ?
