Thread: [I think I am going to start a Ewhore Skype Group, Comment your Suggestions](#)

N?ght - April 29, 2018, 12:46 am

Fuck that montius scammer kid, I want to create something better to help out the ewhoring community.

In the beginning his skype really helped me get started ewhoring with all the other ewhores before it turned into a shithole of a skype.

Id start one with no selling allowed accept maybe some small talk about currency exchange, and would kick anyone who isnt active.

Let me know if youd like to see something like this :) Just a place to share ideas, traffic and help out one another
