what is this about and what are you talking about?

ZeroOne - May 1, 2018, 3:20 am

I have no idea what you're talking about.

You should probably read [this](#) thread written by Maxim on how to properly file a deal dispute.

Eccy - May 1, 2018, 3:25 am

Yeah this makes no sense, you should probably say what the crypter did to you

UpTheCrust - May 1, 2018, 3:32 am

I'm pretty sure his crypter hasn't been sold on here in a long time unless someone stole his name

Zens - May 2, 2018, 4:16 am

no proof + a new member + non make sense thread

i mean at least you need say to what wrong with the crypter and why it does something wrong to you like the crypter is ud not fud

what was the point of copying 75% of someone's post

I was defrauded by the thief as well.

He is an impostor masquerading as the developer of Razor Crypter and using it to defraud people

The Real developer of Razor Crypter is in jail, so the original project is dead

The scammer is claiming to be Razor and if you pay for the crypter, he will block you and not send anything

He accepts payment by Bitcoin, so its untraceable and you can't chargeback.

Beware

I was also introduced to him by Dyar Kalari or someone like that.

Also a turkish.

How did you get in contact with the Dyar kalari

Send a link to his YouTube videos, I will report / flag all of them and contact YouTube support with proofs to ban his IP

He won't be able to create any video again or defraud any other persons.

He is mad
