Thread: [HOW TO CRACK WPA WIFI PLEASE ?](#)

HebsCoast - May 4, 2018, 1:29 pm

Hello everybody !

Here I am moving soon, and I will not have internet for about a month time to open a line. So, I wondered if it was possible to easily crack a WPA / WPA2 key knowing that I am far from being an expert in programming so if someone has a solution not too complicated, I'm interested.

(Sorry for my english, I use google translation if you answer me, can you avoid the abbreviations etc. so that I can translate.)

Thank you in advance hoping that someone will bring me a solution!

Well cracking wifi is not too difficult, have you searched about perhaps a bit? Youtube has many good resources.

This is literally the first one that popped up in a search:

<https://null-byte.wonderhowto.com/how-to/hack-wi-fi-cracking-wpa2-psk-passwords-using-aircrack-ng-0148366/>

But best thing is obviously do your research like in regards to wifi adapters because they MUST support injection.
