Appraisers review:

(Jun 14, 2018 04:08 PM)Theocritus Wrote: [\[CITE\]](#)

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [The God Of Snapchat E-Whoring I 1-on-1 mentoring](#) by "Caligio"

This eBook consists of 1 main method and a few bonus methods, (depending on the package you purchase), totaling 29 pages.

Before I get into the eBook itself I will talk a bit about the other sides of this eBook.

First of all, I was given the "godly" edition of this eBook, which is the most expensive one and the one that contains all the bonus content available. This edition does include a few packs as well, but I will not be reviewing those today. The godly edition consists of the main eBook, which is included in all the editions and consists of 21 pages, as well as an 8-page eBook with some bonus methods. This 8-page bonus eBook is only for the advanced and godly editions as far as I understood.

Now the grammar in this eBook is nothing at all to complain about. The structure is nice, I saw very few grammatical errors, and the entire eBook just feels very good and high quality throughout.

The eBook also contains a "table of contents" which is great for seeing everything included and very practical if you want to reread a specific section later on.

OP has gone with a purple coloring for the eBook background, and I think it fits well enough. Overall, from a design standpoint this eBook gets very high remarks from me.

Firstly, I will cover the main eBook and its contents, before moving onto the bonus methods later on.

To me this eBook covers everything from A to Z when it comes to snapchat e-whoring. The eBook is very well structured with chapters covering more or less everything. From how to set up your e-whore girl background story, name, age, to covering a wide array of traffic sources, how to take payment, you name it.

This eBook more or less has it all in my opinion. Now I haven't been in the e-whore game for a while myself, but I can safely say I learned a good amount of very practical things from this eBook. Below I will quickly sum up some of the things mentioned in the eBook.

You are taught how to: Set up Snapchat on your phone or PC for e-whoring.

Handle different problems you might face with customers.

Find a wide selection of traffic, ranging from saturated sites to many other less saturated sources.

Advertise and maximize profit from your Snapchat e-whore.

Use varying techniques on how to handle customers, to convince them to buy etc.

Create your own packs online

& more

Not only are you given a 21 page long, detailed and high-quality eBook, OP has also included multiple short videos to show live how to do certain things taught in the eBook.

This is the first time I have encountered video tutorials in more or less any eBook package I have

ever seen on HF, and at the very least the first one in the e-whore genre. Just that OP cared enough to make these video tutorials and put them in shows he has more dedication to making a well-rounded and high-quality eBook than most other sellers on here. Just reading through this main eBook again I see just how much information is propped in here. 21 pages of information is enough almost no matter how you slice it, but this eBook has managed to really maximize the value of each & every page in my opinion.

If you want more information about this main eBook you will have to buy it I'm afraid, but I don't think you will regret that decision at all ?

Now onto the bonus methods. The bonus eBook consists of 8 pages and a few different methods. These bonus methods are centered around everything from automation, to maximizing profits even more. You are shown how you can potentially expand packs you are already using, how you can increase traffic to your snapchat(s), and more.

You are also shown how you can safely transfer money from an e-whore PayPal to your main PayPal. There are also some other bonuses explaining how you can make some extra money using a website or two in tandem with your Snapchat.

Some of these bonuses are only for the godly edition, but some are also for the "advanced" edition, as far as I saw anyhow. OP also claims he will update this eBook multiple times, and at this point I would imagine he already has an update or two out since I was given this review copy a while back. If the updates are anything like the content I've already seen here, then I would be very happy indeed.

OP even adds a size chart for breast sizes. I mean what is not included here.. it's a 10/10 for me.

Personally, I would say this is probably the best Snapchat e-whore eBook I have seen so far, and I think anyone can make bank with it if they are willing to put in a little effort and time.

### Final Thoughts

To OP I would suggest you iron out the very few grammatical errors here and there. Other than that I would just like to say, well done on your eBook, it beams of quality in my opinion ?

Since this is in the e-whoring genre it is already a fairly niche eBook. But if you are willing and fine with doing e-whoring, then this eBook will no doubt get you your money back, as well as potentially much, much more with some time and effort. I think this eBook will have the most value to people just starting out with e-whoring, but I think even a seasoned pro can learn some very nice tips and tricks from this. A worthwhile pickup almost no matter I would say, if you are looking for an e-whore eBook that is.

I read the eBook and gone through the methods mentioned in the eBook. This eBook explains you about the traffic sources and methods to gain traffic on your snapchat and how to deal with it.

Snapchat is not very easy as you get pics removed and get banned so this eBook also explains to you how to tackle all those problems ( Which can only be done by experienced people ).

OP shares his traffic sources and methods in the eBook as I myself know about traffic sources, they are hard to find which OP made easy for you guys.

I'd consider it's not like those typical eBook's getting sold on HF but this actually contains real matter. I'd recommend everyone to at least go with basic package!

Well, hello there my little friend. So you want to see if I'm making any money with this huh?

Before you assume that all my earnings are fake or what not, because why would I sell this if I earn sooo much money... I suggest you take these few things in mind:

1. Feel free to PM and I will show you the proof live in a join.me session or skype
2. There is room for everyone in e-whoring. This product is not the cheapest in the market and for that reason, I'm not that worried about any kind of saturation.

So I finished reading Ebook and can say it is pretty HQ content even though 70% of that I already know I got a good list of Traffic sources, some advices how to get traffic from Social Media and a few tricks for SnapChat Ewhoring which I did not know before. So it is definitely worth 20\$ so I might upgrade to Goddy one.

Have good luck with earnings bro and hope I will make shit ton of money in future using your knowledge!

Well. It is clearly written in the thread design itself.

Basic package get's you only the basic information + few packs.

With advanced you get 3 bonus methods and 1 HQ pack,

With godly you get all the bonus methods, all updates (currently working on a exclusive discord server as well), 2HQ packs and 1-on-1 mentoring.

Just bought the Godly package, will right a review on it soon!

As a experienced e-whore I didn't find this very helpful, HOWEVER if your new to e-whoring I would suggest it. This e-book has a lot of traffic sites that I never heard of and has a lot of good tips and tricks.

**Pancake Boat** - June 6, 2018, 6:45 am

I'm online for at least the next 12 hours if anyone got any questions.

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [The God Of Snapchat E-Whoring I 1-on-1 mentoring](#) by "Caligio"

This eBook consists of 1 main method and a few bonus methods, (depending on the package you purchase), totaling 29 pages.

Before I get into the eBook itself I will talk a bit about the other sides of this eBook.

First of all, I was given the "godly" edition of this eBook, which is the most expensive one and the one that contains all the bonus content available. This edition does include a few packs as well, but I will not be reviewing those today. The godly edition consists of the main eBook, which is included in all the editions and consists of 21 pages, as well as an 8-page eBook with some bonus methods. This 8-page bonus eBook is only for the advanced and godly editions as far as I understood.

Now the grammar in this eBook is nothing at all to complain about. The structure is nice, I saw very few grammatical errors, and the entire eBook just feels very good and high quality throughout.

The eBook also contains a "table of contents" which is great for seeing everything included and very practical if you want to reread a specific section later on.

OP has gone with a purple coloring for the eBook background, and I think it fits well enough.

Overall, from a design standpoint this eBook gets very high remarks from me.

Firstly, I will cover the main eBook and its contents, before moving onto the bonus methods later on.

To me this eBook covers everything from A to Z when it comes to snapchat e-whoring. The eBook is very well structured with chapters covering more or less everything. From how to set up your e-whore girl background story, name, age, to covering a wide array of traffic sources, how to take payment, you name it.

This eBook more or less has it all in my opinion. Now I haven't been in the e-whore game for a while myself, but I can safely say I learned a good amount of very practical things from this eBook. Below I will quickly sum up some of the things mentioned in the eBook.

You are taught how to: Set up Snapchat on your phone or PC for e-whoring.

Handle different problems you might face with customers.

Find a wide selection of traffic, ranging from saturated sites to many other less saturated sources.

Advertise and maximize profit from your Snapchat e-whore.

Use varying techniques on how to handle customers, to convince them to buy etc.

Create your own packs online

& more

Not only are you given a 21 page long, detailed and high-quality eBook, OP has also included multiple short videos to show live how to do certain things taught in the eBook.

This is the first time I have encountered video tutorials in more or less any eBook package I have ever seen on HF, and at the very least the first one in the e-whore genre. Just that OP cared enough to make these video tutorials and put them in shows he has more dedication to making a well-rounded and high-quality eBook than most other sellers on here. Just reading through this main eBook again I see just how much information is propped in here. 21 pages of information is enough almost no matter how you slice it, but this eBook has managed to really maximize the value of each & every page in my opinion.

If you want more information about this main eBook you will have to buy it I'm afraid, but I don't think you will regret that decision at all ?

Now onto the bonus methods. The bonus eBook consists of 8 pages and a few different methods.

These bonus methods are centered around everything from automation, to maximizing profits even more. You are shown how you can potentially expand packs you are already using, how you can increase traffic to your snapchat(s), and more.

You are also shown how you can safely transfer money from an e-whore PayPal to your main PayPal. There are also some other bonuses explaining how you can make some extra money using a website or two in tandem with your Snapchat.

Some of these bonuses are only for the godly edition, but some are also for the "advanced" edition, as far as I saw anyhow. OP also claims he will update this eBook multiple times, and at this point I would imagine he already has an update or two out since I was given this review copy a while back. If the updates are anything like the content I've already seen here, then I would be very happy indeed.

OP even adds a size chart for breast sizes. I mean what is not included here.. it's a 10/10 for me.

Personally, I would say this is probably the best Snapchat e-whore eBook I have seen so far, and I think anyone can make bank with it if they are willing to put in a little effort and time.

Final Thoughts

To OP I would suggest you iron out the very few grammatical errors here and there. Other than that I would just like to say, well done on your eBook, it beams of quality in my opinion ?

Since this is in the e-whoring genre it is already a fairly niche eBook. But if you are willing and fine with doing e-whoring, then this eBook will no doubt get you your money back, as well as potentially much, much more with some time and effort. I think this eBook will have the most value to people just starting out with e-whoring, but I think even a seasoned pro can learn some very nice tips and tricks from this. A worthwhile pickup almost no matter I would say, if you are looking for an e-whore eBook that is.

(Jun 14, 2018 04:16 PM)Joca97 Wrote: [\[CITE\]](#) bought so many ebooks not much luck, what is your difference from any other?

I would say that the biggest difference is that I actually care, I care about you, I care about everyone that has purchased it. Some of my more active mentorees - I am offering to work together with on some side projects.

To answer to you shortly - Theocritus did an awesome job giving an inside look into my product.

From the bottom of my heart - I don't need anyone to purchase it, like - I'm not another poor kid trying to make money by selling some shit e-book that I wrote in 5 minutes, but if you do purchase it - you won't regret and I will do my best to help you as much as possible, but you have to be dedicated, you can't expect to purchase my product, scroll through it while drinking a cup of tea and then click there and here and wait for money to roll in your bank account.

If you are ready to put in the work - I'm honestly giving you all the tools and I will give you more and more if you just ask.
