Thread: [Custom Made Fortnite Accounts With V-Bucks Tiers \(2 Accounts In Stock!\)](#)

YeeZ - May 5, 2018, 3:49 am

Hi HF had a service going where i would just do this on someones account but due to many trust issues etc I will just be selling pre modded ones.

WILL GIVE FIRST BUYER EXTRA ACCOUNT/MORE VBUCKS FOR FREE

Will work on

- PC
- Xbox
- PS4 (Limited support due to i don't have 1 currently)

How these work are they are duped onto PC then put on Xbox/PS so no need to worry about being banned as I've been doing this since season 2 with out any issues doing it on multiple friends accounts and more.

Current Accounts in Stock (Will be more in stock once i sell a few)

Also I can add upto 27000 more vbucks to any of the accounts for the right price.

So, you will duplicate your current accounts, to our own account? Or how does it work?

Cause if so, I'm interested
