Thread: [Prestige Requirement Lowered](#)

Omniscient - May 5, 2018, 6:22 pm

The following sections all require a Prestige of 5+ for regular members to post inside of them.

SRPP
Innuendo
C Programming
Counter Strike
Premium Sellers Section

Previously the requirement for each ranged between 5 and 25 but now they are all just 5. I hope this increases some activity in SRPP which I noticed seems to be a bit slow lately.

Thanks for the update boss ?

I hope this will increase the activity in the following forums you mentioned.

Nice change, should boost activity.

G Eazy - May 5, 2018, 6:26 pm

Hopefully, it will increase activity after all! Thank you for the updates as always!

Nice update, I'm sure it will increase activity.

I was personally pretty down about SRPP when I first joined and I haven't even attempted to post there since. I think I can now though. Very happy about this!

Good change. Why is there any requirement at all in the C section though? I think encouraging discussion of all kinds of coding could be a good way to increase activity in those sections as they have never been more dead.

Example today I saw a thread in PHP, there was a member who replied with a really helpful response and that person had registered today. Had that person faced the same restriction in the PHP section they would've not been able to make that post and help the OP.

Glad to see the prestige requirement change though, good job!

Why did CS have a requirement? To prevent cyka blyat?

KOTOR - May 7, 2018, 10:50 am

This is awesome. Can't wait to finally post in these sections now. Only a matter of time until I get that extra prestige point. :x

Entim Inc - May 7, 2018, 11:38 am

How does one obtain prestige?

To reduce the amount of spam and low-quality posting in those sections.
