I already have a thread for my forum there.

I posted it in the favors section bc I'm asking favor to post lol I'm not posting a general advertisement

Like yeah moving it makes sense but it also doesn't? Is that not a favor?

I mean you pretty much answered your own question, if it got removed from favors it's most likely not considered a favor

I think that even though you consider it a favor, HF site rules and policy count it as showcasing your website and therefore it was moved to the appropriate section.

Good luck with your website.

Hmm yeah well I suppose that makes sense.

Well @ staff please delete or merge the thread to my other one if you can.

Thanks
