Ik this is an old anime and i watched it back when i was 8 when it first game out on netflix or hulu and now im 15 but what are your thoughts behind it?

Do you think it was one of the saddest anime you have ever seen or THE saddest because it had a lot of emotional appeal to it such as the intro and outro and the central plot.

It is definetely a rememberable anime.

Just in case you never watched angel beats, it has probably one of the best plots imo i have ever seen.

It was alright. I think the anime is a little overrated however.

Holy shit, Angel Beats is considered old now? I don't think it's the saddest but it was pretty good.

This is a very sad anime but to say it's the saddest I'm not so sure.

I really did love this anime so I have nothing bad to say about it the ending absolutely tore me up on the inside.

You should checkout "Your lie in april" next mate.

This guy doesn't even own a car

This anime is in my TOP10 favorites of all time, mainly because the OST is SO DAMN GOOD!. Episode 3 is actually my favorite anime episode, of all times.

However there is even sadder anime, Saikano is the saddest I've seen I think. Then there's Elfen Lied, Anohana, Your Lie in April, Clannad and I'm sure I've seen others however I can't recall.

OP you may want to read Angel Beat's manga, as its the prequel to the Anime, it tells the story of how the SSS came into shape.

Maybe not the saddest, but defo one of the saddest for me.

Change - May 9, 2018, 3:41 pm

Hold Up. Your lie in april was no where NEAR as sad as angel beats.
Honestly, it didn't really appeal to me.

S???L?? - May 9, 2018, 5:43 pm

You don't know sad until you watch grave of the fireflies

Caliban - May 9, 2018, 5:56 pm

Its an ok anime but doesnt live up to the hype and the ending was sort of the worst about it

Shuxas - May 13, 2018, 10:25 pm

It was a really good anime , and although not the saddest, like Clannad, I thoroughly enjoyed every second and really need to rewatch soon.

Weebex - May 13, 2018, 10:41 pm

It was sad, but I've seen sadder endings. It's ending is definitely up there in the feels list. But it definitely doesn't beat Mawaru Penguindrum ending.
