Thread: [Reply post issue](#)

Kashmir786 - May 6, 2018, 7:08 am

Hi I am having issues replying to a post when I click on the post button nothing happens I think posting a new thread is fine

Deany - May 6, 2018, 7:09 am

Just tried it and it works fine for me

Are you on mobile by any chance? I get this all the time and it pisses me off to no end. Can't wait for mobile friendly theme to be installed here.

If you are on mobile experiencing this I notice you write your post, hit preview post then you can post it no problem. Maybe this is a completely different issue, who knows.

Kashmir786 - May 6, 2018, 6:00 pm

Yes I am on mobile I will try your suggestion

ZeroOne - May 7, 2018, 7:03 am

This happens to me all the time when I use HF on mobile. Normally what I do when I encounter this issue is copy my reply, hit preview, paste it there then post it.

Have a good day ?
