The pm restriction is for 25 quality posts and it advises against low quality spam so I doubt that it would take 20 minutes to achieve this.

I don't see any need for a pm also. If your service is not providing the details as advertised then I don't see any harm to the wider audience in discussing that in this thread.

Just to confirm, I am unable to login with the details that I purchased as Spotify advises the details are inccorect. I can provide you my order number on here to allow you to identify the issue with my order.

I think you'll be waiting a long time from what I've experienced so far. I doubt he is even on vacation based on the other replies in this thread and the recent feedback he has received.

If this site has a shitlist, this seller should be on it

if this is how you are going to act as well as more or less even calling me a liar then that warranty is growing thinner and thinner for you..

So for \$2.50 my account will be upgraded forever?

Spotify recently became available in my country so this seems great

Woes - August 24, 2018, 7:20 pm

Please PM me, my account is no longer premium. I've already messaged you on discord, and you haven't replied, though you're online.

Are you taking PayPal now?

There's a paypal payment option on the rocket page, but your earlier comments say you're taking crypto.

Do you take both? or only crypto?

LeaguePP - September 23, 2018, 2:20 pm
