Thread: [Upgrade another user to epic without being?](#)

Juice. - May 9, 2018, 4:14 pm

Hi. I did a giveaway for an epic upgrade and I have chosen a winner. When I go to the screen I don't see a place to enter another user. Am I able to purchase it for someone without being upgraded myself?

No. You need to have 3p1c to gift it to someone

You are not. You would either need to send them the funds to upgrade themselves or send the funds to another user with the upgrade and have them purchase the upgrade for the user.

I would simply send them the money, if they dont upgrade, then... well thats just a conversation starter!

Boom, friends. ?

OP has contacted me. I'll get EP1C once I get the money so this issue will be fixed soon.
Thanks OP!
