Thread: [15\\$ | Spotify Upgrading Mastermind | Upgrade Unlimited Accounts | Start Your Own Shop](#)

CompleteGram - May 10, 2018, 7:46 am

I am selling my own method to upgrade any Spotify account.

The method is public but my tricks for making it longer are the reason why the price is high because it

makes the accounts last VERY long. My own account is with a premium membership for 4 months already.

You can start your own upgrading service. In the next update, I will tell you how to upgrade without knowing the client's account's password, Which will make your service more reliable.

Another reason to why I sell it for a high price:

The base method is public, It is about cracking Spotify accounts and using their membership on your own account.

But when you apply the membership on your account, You will need the owner's registration location (Street, City, Postal code and etc),

and without and you can't apply the owner's membership to your own account, And I will tell you how to get it in the method.

Why don't I start my own upgrading service? As you can see I wanted to start my own upgrading service,

But I stopped. Why?

Because if I will start my own Spotify upgrading service, I must spend a lot of time because I can get a lot of

clients, So I decided not to start an upgrading service.

Price: 15\$ 10\$

The price will increase after a few sales.

The method is VERY easy. You will just need a VPN. You will also get unlimited free updates and unlimited

free support.

By buying the method, You agree to my TOS:

1. There are no refunds. Everything works 100% worldwide.
2. I am not responsible for your actions.
3. You won't leak, share or sell the method.

Available payment methods: BTC and PayPal (Friends and Family)

To buy or if you have questions, Please PM me.

Available vouch copies: 0/2

If you're giving out vouch copies and you think I'm a good candidate to review your method and vouch for it, I'd love to take a copy.

Good luck with the sales OP.

PM'd you. Thanks.

I have received a copy from OP for the method being described.

The method describes exactly what OP said, he tells you how to get the location in a very simple way. Method is straightforward, easy to follow but seems time consuming. If you have extra time on your hands and want to start an upgraded accounts shop, I would advice to get this. If not, this is not the method for you.

****PS:** The only problem I had with this is the grammar, it could use some work.

Thank you ?

Thanks for the detailed review! In the next update, I will show you how you can start your own upgrading service with selly, So it will be automatic.

First of all , Thank you for giving me a vouch copy.

The first part of the method is as what OP said. It involves cracking Spotify accounts until you get a certain membership account
for the requirement of the method with either paid or free tools and OP will provide support over this on discord.

Now the important part of the method requires a tiny bit of effort to get certain details in order to unlock the account and also a VPN for certain reasons.

The organization of text is quite crumbled together. There is no problem with the font but the organization of the texts and the screenshots are in links instead of pictures.

Could give it a go if you want , its up to you or just buy it for extra knowledge.

Thanks for the review.

I will also make the ebook look better in the next update.

I have upgraded spotifys in the past, also spotify added captcha over login so does this come with anything to bypass that?

CompleteGram - May 13, 2018, 10:35 am

Bump. You can buy this method for opening your own Spotify upgrading service, Or just upgrade your own accounts and maybe for some friends.

CompleteGram - May 15, 2018, 11:54 am

Still selling. PM me for more information!

CompleteGram - May 23, 2018, 3:32 am

Is this a lifetime upgrade?

Will you also explain how to get family accounts?

Can you accept AGC?

Thanks :)

Not for lifetime, but they will last for a very long time so you can be reliable.

Yes, I will explain,

Sorry, but I don't. PM me for more information :)
