Thread: [Nakamoto exit scam | UID=1041725](#)

AlphaTurtle - May 10, 2018, 8:00 am

So yeah.

[Nakamoto](#) just did the latest exit scam on HF.

He was selling 4 things:

<https://hackforums.net/search.php?action=results&sid=ca2c570dc1d655d894422ae0f34a6fde>

He scammed about 4 people with [this one](#) and about 4 with [this one](#)

I won't be posting any proof because he just got a self ban, and those who got scammed by him will post here and that will be proof enough.

I was thinking of making a dispute the last hour and well now it doesn't really matter anymore.

6iix9iine - May 10, 2018, 9:49 am

Messaged OP on skype with a link to this thread. I haven't heard anything yet from him. This is really shitty because I was looking forward to that AdWords method. I will update here if anything changes.....

Caliban - May 10, 2018, 9:56 am

RIP what a scumbag

should have seen it coming

Saltpeter - May 10, 2018, 10:30 am

Just took a vacation ban too. Pretty sad.

Don't forget to add this to the dispute database.

LOL people paid him 500-750\$ for adwords method like it's nothing. I mean they didn't even waited for someone to vouch or confirm.

Trust scan was shady as fuck too.

The fact that he had extremely good reputation was a factor in me buying. He also was vouched for by several large users here on the forum...

Also, the nature of running a trust scan is impossible unless you're upgraded. I think that should be changed.

luke - May 10, 2018, 11:05 am

Extremely shady trust scan, this is why you gotta check it.

That's the fucking issue. These days a vouch or reputation means nothing on Hackforums or even in real world. This forum is filled with lots of young kids and adults as well from all over the world and they have their needs. You never know when a legit guy gonna turn into a big exit scammer just because he needs some extra cash to buy some drugs or to pay bills/rent or to spend on his GF.

You can't trust anyone these days and you have to take precautions to save your money else, someone will take it from you.

I agree with trust scan issue but there's a simple solution for this problem, you can ask anyone to lookup for you and I'm pretty sure he'll give it.

Heck, I'm gonna start a service to provide trustscan lookups for non upgraded members and I will ask others to do the same. I hope it's gonna help.

I wouldn't do that. I've heard of members being warned for doing something similar.

It's just retarded because mods, and other members would rather disregard someone with no reputation even tho it's obvious af you can't be unbanned changing you hwid on fortnite lol

3p1c and Ub3r have access to it. Accounts with only L33t cannot. Yeah I just saw that on upgrade page.

Maybe in future. ?
HODLing right now.

Yes, that's how it works. If he got banned he'll make a new account anyway.

He was just closed so he's not coming back

?

SIM-611976 - May 10, 2018, 2:05 pm

Also bought it and can confirm he scams.

Personally I guess I don't care cus I make 10k\$+ daily so whatever. This fool will always live with being absolutely worthless and lying to himself cus he can't actually achieve something. Just another broke kid who thinks 3k or whatever he made will change anything while this will never happen.

Tbh I'm more sorry for kids like him cus they seem very desperate with their own life conditions.

Fun fact:

I offered him cooperation and telling him how to actually earn that much if he would have had that specific method, which he does not.

That actually WOULD have been a real life changer for him, making a few grand on autopilot every day.

But ofc he misses that as much as many other things in life cus he can't see the bigger picture.

Wait did retards actually pay \$700+ for that shit? I legit think i know the method he was using and it's worth like \$10

Inb4 another scam.

People paid because one guy went ahead and paid him, Most probably he was involved in this scam. It's the common technique conmans use.p

Pretty sure this guy (Ferruccio Lamborghini) is involved.

@draguny can you post your chatlogs and payment tx? since you are the first guy who "went ahead" and bought his "method".

I can confirm that this guy is involved in scams and it's a "sold" or hacked account. You can see his post's before January 2018, almost 80-90% posts are in crypto section but suddenly he comes back after 2 months and starts posting in premium seller section.

Omni himself gave him neutral rep to warn members.

How exactly does someone get permanently banned if staff does get involved in DDs?

It is likely his account was compromised in some way, which Staff certainly do get involved with.
