Thread: [Most subscribed services worldwide](#)

ORION777 - May 10, 2018, 12:30 pm

It is common knowledge: giant services like Spotify, Apple Music, Amazon Music, Netflix and so on are gaining more and more users every year.

Which service do you know that offer a family plan?

No specific country limitations here. You can freely share a service that works only in the US/UK/India or whatever. What I mean is: doesn't have to be worldwide.

Following, a quick list of those that I am already aware of.

Would you help me to find new ones?

Spotify

Apple Music

Amazon Music

Google Play Music (+ YT Red)

Tidal

Deezer

Netflix

Office 365 Home

Amazon Household (Prime)

Hulu

Anghami

Bitdefender Family Pack

PS: would be great if the service allows different accounts for each user. Even better if the accounts are "private" and not "public" (i.e. Spotify vs Netflix).

Business plans like the "Zoolz Archive Business" are fine as well, as long as they do not require a payment per user (i.e. dropbox).

Thanks for your help!! ?

Anybody knows about any other service?

Thanks :)
