Thread: [Someone to "unblur" a picture of some text](#)

~HF~ - May 11, 2018, 9:41 am

Hello,

I'm in need of someone to unblur/clear up a picture of some text in a video so I can read it, not sure how possible this is just thought id make a post to see if anyone can do it. Willing to pay whatever you think is a fair price.

Thanks ?

How blurry is it? Don't think it's really possible unless it's not too blurry

Shoot me a PM and I'll see, some sharpening filters might be useful but really depends on how much blurred it is.
