Thread: [OSIRIS CRYPTER||SCANTIME FUD||RUNTIME FUD||STABLE||FREE||STILL FUD||](#)

VENI - May 12, 2018, 4:55 am

[b]Hello everyone i was going to make this a paid crypter but stuff that. I want to give back to the community so here you go this is still FUD and if it gets detected then pm me and i will update this.

Scan: <https://spyralscanner.com/result/id/2S3RX2113X>

To get the download link PM me and give a vouch

Instructions:

- 1.PM me for the link
- 2.Download it
3. Enter this serial
- 4.Go to the Encrypter tab and locate your stub
- 5.Encrypt it
- 6.Scan it on SpyralScanner and see if it is FUD
7. if it is FUD good job

Compiler tab is not working so dont bother will fix it in next update. SO no need to use Other options tab either! also the downloader is not fud so i wouldnt recommend using it.

IF I FIND THAT IT IS NOT FUD ANYMORE DURING THE NEXT FEW HOURS I WILL REMOVE THE SERIAL

Enjoy ?[/b]

I have taken down the serial due to people scanning on virustotal

Lets say you were sending him a RAT....

Why on earth would you send him an unencrypted RAT anyway. That's just rock bottom stupidity.
