Thread: [Display Someone's Ban Reason.](#)

Not sure if this suggestion has been made yet, it probably has.

I think it would be amazing to see the reason behind somebody's ban/closed account.

Let me know what you think.

Closed account ban reasons are sometimes shown in trust scam.

Ban reasons are shown on bans.php (which you can see when you are ub3r).

I often browse bans.php every morning to see what's up.

The two months will pass before you know it. I've been denied three times :)
