Thread: [Need Logo for my anti bullying program and suicide awareness](#)

OctoberHacks - May 12, 2018, 7:06 pm

I created a program called PBAP or project build a path which I made to help fight against the suicide rates nationally and in my city. The whole idea of the project is for local groups and, I to go to schools and present to the kids that help is out there. This is nonprofit work if anyone is interested in helping out that would be awesome. However, this logo needs to be vector so it can be printed on shirts. PM for details if interested or leave a comment and ill pm you. Ill give you mostly free rain on creating the logo.

I would like to help. Could you send me a message with details?

PencilEater - May 15, 2018, 4:11 am

I made the logo for you but since I'm a new member I can't send private messages. So could you give me your e-mail adress so I can send you the files?
