As the title says recommend me a good multiplayer game, it might be FPS (World War 2 type) or a RPG.

I have played so far:

League of Legends

Dota 2

Minecraft

Fortnite

CS:GO

World of Warcraft

Lineage 2

Shaiya

Rust

The forest

Darkest Dungeon

all Assassin's Creed series

Middle Earth: Shadow of Mordor

Middle Earth: Shadow of War

Rise of The Tomb Raider

Dark Souls 1-3 and many many more.

I dislike: Horror, MOBA, Zombie survival, Anime style

U can try Multi Theft Auto San Andreas, is a multiplayer online game with +250 gamemodes, starring with races and battles like CS hehe, it's my favorite game!

If you want a multiplayer game, I suggest you to try Rainbow Six Siege. That game is fucking awesome. I just started it and I really enjoy playing it. Although, it might be more enjoyable if I had friends to play with ^_^ (I got 3, but they're mostly offline).

And if you want to play a single player game, I'd say try Witcher 3 - The Wild hunt. It will keep you hours and hours of playing :cheers:

I'm also thinking myself that I'd play Dead Island for like fifth time lol, that game is pure fun ;)

You can't go wrong with the Half-Life series. I would also have to recommend Fallout, Borderlands, Elite Dangerous, Saints Row, pubg. Just a few, although somewhat obvious because I normally play horror.

You could pay \$5 for Origin Access and play a bunch of stuff for an unlimited amount of time like BF1 or Need for Speed Payback. I'd recommend Dead Space 1 and 2 if you have never played that. It's not multiplayer but it's a damn fine game. Stay away from Dead Space 3.
