Thread: [XMR Mining Bot Panel - NO .NET Dependencies Keep Bots Updated Every 6 Month](#)

BotCats - May 15, 2018, 7:56 am

Hello friends,

As you know all bots died after 6 months because of XMR algorithm always re-new after 6 months so you have to spread new RIG (.exe file) you can do this with panel.

EXE file is native running without any problem based computers (Win 7, Win 8, Win 10 and Servers etc.) you can test free.

VPS price: \$50 per month

BOT price: \$250 unlimited + updated free (+Free Installation)

If you are interested in buying bots I can supply also HQ bots for mining.

Escrow (Middleman payment services) Accepted.

Please contact with me for check DEMO and PANEL:

Jabber: BotCatsHF@jabber.im

Skype: BotCatsHF (You can search my skype profile as my e-mail: botcatshf@protonmail.com
skype seems as live:botcatshf)

PM: <https://hackforums.net/member.php?action...id=3229513>

Screenshots (Main Panel)

Screenshots (Statistics)

Screenshots (Update or Execute any Exe file on your Bots)

Specifications:

- Without dependencies.
- Mining on the CPU x64 / x32 XMR.
- 1 working file, 1 workflow.
- Free rebuilding for 2 hosts / 2 purses.
- Free updates, constant support.
- It does not work with the open task manager and its analogs.
- Protection of process memory (do not close without admin rights).
- Does not require UAC.
- Auto-relocation (launched in the desktop, at the same second the bot moves to the right folder and works from there).

- Hidden startup (not visible in the task manager).
- Completely hidden mining.
- No secondary traffic, only mining and sending the machine data to the panel.
- Mining does not depend on the server side, as long as the pool is alive - and the bot is alive.
- Weight: 600 kb.
