yes brother I know that selling thread /service would be in marketplace but in which section .
social networking services or secondary seller.

I think secondary seller section would be better .

Secondary Sellers, imo Service Offerings could fit as well as you're offering a service(unless it's restricted for you).

Why even bother helping the guy out if you're going to be so fucking low quality about it?

He can post it in several sections such as social networking, service offerings and also general purpose sections like Secondary Sellers' and PSS.

It's a genuine question from a new member.

Honestly your response kind of made me a little mad, I get that his question may seem clear to you, but it's really not that obvious as it WOULD be allowed in several questions & I understand his confusion.

Alright sure. Next time I'll be kinder but... he should use some initiative next time.
