Thread: [Droplet's Dropshipping Method](#)

Darah - May 16, 2018, 11:01 am

The method is greyhat which means it aint really legal but yet it still aint illegal. You can not get into trouble by using this method. This method will include a full guide on how to dropship (my way) and easily make your money back (if you aint retarded). I also include some sites on where to find products to sell etc.

Only selling 5 copies so grab them while you can!

1st Copy: \$100
2nd Copy: \$100
3rd Copy: \$100
4th Copy: \$100
5th Copy: \$100

You will easily make your money back.

@Caligio

Droplet decided to handle me a vouch copy after talking to him for a while.

I don't really have any experience with dropshipping as such, obviously, I have read multiple guides and products on this subject, but I have to say that this seems really smart and it is for sure something unique.

The e-book itself is relatively short - it's 2 pages with 13 steps all together, but it explains everything you need to know without going into any unnecessary topics.

About the discussion whether this method is blackhat or greyhat. Well in my personally opinion this is not blackhat for sure, it is rather a little bit "unethical" than greyhat, but the seller also explains how you can be 100% whitehat but in that case, obviously, you are going to have fewer sales thus less profit then if you choose to go the other path, but it's nothing that bad as the well known public method that was popular few years ago which included selling iphone guides for 500\$...

The set-up for this method does not take a lot of time. It's pretty quick and well explained, the best thing is that you don't need to invest money and I see how this can be easily scalable.

Is it worth it? Well OP is selling 5 copies from 50-250\$. I don't think that 250\$ is rather worth it for

this method because I've seen some that cost that much and they get you money quicker, but for 100\$ I would have bought this method. That's why I suggest OP to rethink the pricing.

Good luck with sales,
-Caligio

Black hat dropshipping is not allowed on HF, from your wording it does sound to be on that side.

Read the [Help Docs](https://hackforums.net/misc.php?action=help&hid=21): <https://hackforums.net/misc.php?action=help&hid=21>

I would be willing to review this as I am a dropshipper. I can then confirm if its is blackhat or not.

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [Droplet's Dropshipping Method](#) by "Droplet"

I was requested to review this eBook by OP and I accepted his request.

This eBook consists of 2 pages and 1 method.

Now this eBook is an interesting one. The reason for that is that this is more or less exactly 100% the same as another greyhat dropshipping method I reviewed last month. This time around at least the eBook came in a Word document format and not in a .txt, but that still doesn't change much... when I say it's the same btw I do not mean it's just overall the same with the same contents. No, I mean that literally the SAME EXACT words are in all caps in both eBooks, and the sentences are also 99% EXACTLY the same..

Now I do not know if OP copied this eBook from the one I reviewed last month, or if they both got this method from somewhere else, but just decided to both sell it on here or what have you. There are many possibilities, but none that are great. It seems that at the very least, someone is copying this eBook. Now as said, this can simply be a case of OP selling a product copied from someone else without permission. But it can also be that both OP and Jack that are currently selling this, both copied it from somewhere else. Another forum perhaps, and then just decided to sell it on here. No matter what the case may be, this method is now much more likely not to be private, and both the users selling it on here may not have ownership of it either. Until this is cleared up I would take caution investing in this product. I really don't intend to review the same product twice, so I will just link to my other review below. As again, it is exactly the same..
