Thread: [Direct link to exe file !](#)

scavenger - May 17, 2018, 2:28 pm

hello I was very make effort but I could not link my exe file directly :(can you help ? for doc,pdf exploit

INCREDIBLE - May 17, 2018, 2:33 pm

Try Dropbox. you can't just upload exe file directly to file hosting websites unless you have your own domain and your hosting provider allows direct exe hosting.

This is how this RIPPER (SecService) starts. He embed himself in your thread and throw up a suggestion. You contact him then boom, you ready to be ripped apart. He is brutal, merciless, potent and a highly skilled NIGERIAN RIPPER.

Avoid him like leprosy!!!!

Hahahahahah.....my challenge to you is this: I post your fake exploit on here, confirm that is what you sold to me. Lets everyone on HF that are not "kids" try it. How about that? But you wont because you know its a scam. I have received tons of messages of guys you have scammed too. I will post their screenshots if you keep fucking about you piss of dog shit
