Thread: [Theocritus' Service Review for "Lildog's Custom Software" by Lildog](#)

Theocritus - May 18, 2018, 2:21 pm

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your Service.

Service: [LilDog's Custom-Software | High Quality | CHEAPEST ON HF | PROGRAMING SERVICES!](#) by "LilDog"

I was offered to review OP's service earlier this week and I accepted his request.

It turned out I was actually in need of a Socks5 proxy grabber, so that is what I requested he make. He began on the program immediately and kept me updated throughout the entire process. He asked how I wanted it to work, what it should do and so on and so forth. I wanted the program to grab Socks5 proxies only and wanted it to grab at least a few hundred at a time. OP was not able to really find a site or sites that could provide this, so the amount it would grab per search ended up being much less. But this is not something that is OP's fault, and not something that at all drags down the quality of his work.

The entire process took under 24 hours I believe, and communication was top notch throughout. The program was delivered promptly as said, and it did the job it was supposed to. All I need to do is click on the executable file and it will then grab some proxies for me. The simplicity of it is quite nice as well.

Overall, I think OP is providing a very high quality and proper service here. As I have stated above both delivery time, communication and all else was top notch in my opinion. If you choose to try out OP's service I am sure you will be satisfied with the results.
