Thread: [Remove Game bans from your steam profile](#)

NA Riven - May 19, 2018, 7:18 pm

Heya,

Someone just told me about this method to remove a Gameban from your Steam account.

Step 1: Login on the Steam website

Step 2: <https://help.steampowered.com/en/wizard/HelpWithGame>

Step 3: Search the game you want the game ban from removed

Step 4: Click "remove this game from my library"

Step 5: Profit

Note: This only works on GAME bans and this will also remove your hours of the game you removed on your profile. You will also NOT get unbanned from the game and if you reinstall it or play it you get banned again.

Too bad this doesn't work for VAC bans :V

anyways; cool for you to free release this, saw nibbas selling this method on other forums, always knew it was had something to do with that meme of an option.
