SALES THREAD

<https://hackforums.net/showthread.php?tid=5381080>

DESCRIPTION

Basically user is selling private methods about doing black hat activities.

First method is simple method wehich I would rank as #Phishing #PayPal Fraud #Financial Fraud it is so simple and If I post proof it will basically expose it so I don't want to share it here publically admins, if needed I can provide proof to back up my claims basiacally you use those methods against paypal and amazon and that method is from someone else not @FireNice which he might have purchased ressell rights

Third, the main method which is advertised here as "If you buy my private methods, I guarantee you'll earn \$1000 daily minimum, it's premium methods you won't find reading shitty free HF ebooks, it's methods you have never seen before which will X5 your earnings. I'll mentor you and if you earn less than \$1000 daily, I'll refund you, but of course, it will never happen." So basically this method is again breaking HF rules #Blackmail and Extortion so the rules are all here.

<https://hackforums.net/misc.php?action=help&hid=21> I'm not sure if I should oipen a scam report, as he delivered, and in the same time, he is selling illegal stuff here, so I have a little mindfuck now.

So here are ss backing this claim

Just to add something more, i'm not sure if this person is serious or lunatic?

Maybe that's how he is evading a ban? maybe connections? He's telling me he is selling that method on Discrod not on HackForums yhmm <https://i.imgur.com/JvZ1GLp.png> that's funny, because, he sent me two ""private"" methods one about simply phising mails and stealing money and the second one connected with ewhoring but added BLACKMAILING people to send you money loool! He's still 100% sure he is not selling it on HackForums, there are no other files he is sending: proof

Again to add something here, I'm nopw sure, that he will defend him that he give me or sold me the Blackmailling method on discord, because the one pdf file you see is about phising emails haha, anyway still not allowed here and the second methods is not even needed in ebook as he is sell;ing pack and everything about ewhoring so he simply told me, but that's his method to earn that 1k\$ daily lol

insrt - May 20, 2018, 1:27 pm

but the real question is did the method work for you?

I kek'd

Although i know a case where some dude i knew back then actually managed to pull off this method with some fat fuck on [BRAND NAME REMOVED] LOL. I think he got a 200\$ PSC out of him. But jesus selling this as an actual method is beyond me.

But., but he doesn't sold me it lol ?

He's claiming he dealt with me "on discord" anyway if that's he's defending line then ok, but still I got from him a method about Phising, so He gave me illegal method which is against HF ToS + he told how to use his "private" packs to earn the 1k\$ advertised in his sales thread "on discord" haha

Also oone more thing, he promised, to refund if I don't earn, which I will never earn as it is all Black Hat, and he claiming he paid \$4k for a Autohotkey script? ?

If a thing like this:

```
Code {
F5::
    Send, hello, I'm 23yo, I'm from UK & you ? :p
    Send, {Enter}
Return
}
{
F6::
    Send, alright, and where do you work ? in which company ?
    Send, {Enter}
Return
}
{
F7::
    Send, alright, personnally I study sport sciences to become a teacher and like every student I'm
broke and I need money :/
    Send, {Enter}
Return
}
{
F8::
    Send, I need money to purchase a book, so if you could help me I'll make you cum :* <3
    Send, {Enter}
Return
}
{
F9::
    Send, what do you think about an exchange ? L10 for 20 nudes, 1 video and 1 dedication ? deal
?
    Send, {Enter}
Return
}is selling for $4k then I have no words....
```

And where exactly is he selling the method? I am sorry about your loss but he is not breaking any rules because he is not selling the method in HF.The thread you linked is eWhore Packs which is allowed.

Hmm, did you actually read his thread? Or looked and saw the title only.

Here And he is recommending for that method his ewhore packs + his "4k\$" automation script

From my experience ewhoring is blackhat so basicaly they scam ppl the main objectif is not sell
nuds pics for money no they double dip them :)

Don't expect scammer to give you advice or give you method to earn money all they do is
scamming ppl for money end of it :)

Should have read this page bro. The dudes a joke.

elkaa - May 23, 2018, 5:37 am

why not doxing scammer here if staff don't get involved in scam report i think will be good to get
them exposed :)

Whispez - June 3, 2018, 11:06 am

Two spam reports on a single person and yet his Thread is alive

He is also boasting in Skype Group that he just has 3 Scam reports and that doesnt make him a
scammer

juulstar - July 12, 2018, 9:50 pm

Just PMed you about how to deal with this.

As I said in the PM, PM the method to staff. If it is truly fraud, they'll take care of it.
