Thread: [Bot finished after developing for 1.5 months](#)

Not Blackhat - May 20, 2018, 11:34 am

We have been developing a bot for a custom method for over a month, it has finally been released and I am very proud to show you the result of one of the first days.

I have never ever earnt this much money in a single day, this is just the beginning. Stay tuned for more. ?

Please don't PM me or reply with asking for the method, we are not going to provide replies to that.

Sauce Me Up - May 20, 2018, 12:18 pm

not a bad start, keep it up !!

Must be a great feeling having a bunch of earnings after developing for one and a half month.

Good job!

Please don't PM me or reply with asking for the method, we are not going to provide replies to that. Ill pay you for the method and the software. How much?

Edit: I thought you earned \$4k lol. But ill still get the method and the software.

He literally said:

"Please don't PM me or reply with asking for the method, we are not going to provide replies to that."

Read jackass.

Okay, PM me. Is it consistently make me \$400 a day?

Zany - May 21, 2018, 8:46 am

You invested your time wisely. Good luck with your future endeavors.

Bands= \$1,000

So he's saying he made 2k in the past 2 days

It's just urban slang

Good Work OP. Things like this make me realize I still got a chance to make it someday

Can you give any insight on the bot? Love learning about things like this.

LuX98 - May 22, 2018, 2:05 pm

That's awesome bro! Keep earning!

It's just a desktop application, written in java, which automates all the tasks required for the method we've discovered. We have also created an android app so we can monitor everything on the road ?

I can't talk further about which tasks we have automated but you get the idea, automation is key :)

I thought automating stuff like this is against their ToS? No?

People are automating Instagram aswell with bots like Jarvee, it's not against OGAds rules to use a bot that for example registers on a random forum instead of doing that manually..

OP's software automates his 'method' not OGAds themselves. It's against the ToS to fraudulently complete surveys.

Thank you for explaining, I didn't realize that he meant it that way :) but yes I am not fraudulently completing the offers

Very good job mate! Keep hustling, the best thing in the world is seeing results from something you've put a lot of effort in. Update us with the earnings ?
