Hi free GFX requester,

Someone requested a 2 minute edit from me so i decided to teach it to him first before i would help him out.

The person plain called me an idiot and stupid and that i should close my GFX service for some reason.

He also neg repped me and kept behaving very toxic and continued to insult me on Skype.

Because of the disrespect this individual showed me i've decided to listen to him and close my service.

You can thank this person below:

He's the reason that you won't get your Free GFX.

That banner is pretty badass, it looks really high quality.. really clear. Probably the most clear banner I've seen on here tbh.

Good luck with your service! I added you on Skype to see if you can do a quick logo for me :)

Hey would you be able to create a Logo for a photography company Called Altered Raw but stylised as ?ltered Raw.

Looking for a logo that isn't big or over the top but modern and elegant as it will be used as a water mark as well.

Want to incorporate the triangle/delta symbol (?) into the logo if possible.

Colour scheme should be elegant and bright.

Thank you

Frankey - May 20, 2018, 11:41 pm

Added you on Skype! :-) Because I would like to keep it private for now.
