Thread: [Improving my pen tool](#)

Xannie - May 21, 2018, 10:25 pm

Wanna get better at pen tooling, so far I've made these

i.gyazo.com/05c6cf46499fd0658bfe0963da7d81c9.png

i.gyazo.com/8b8d3640cff3a059f2de674875bd9059.png (not done)

Basically this is how im doing pen tracing atm is this how I am suppose to do it? (this is an example i try to get close and more clicks but it's just a gyazo gif)

[Video of his pen tool](#)

=====

That's not bad my dude. It's definitely one of the ways to do it, though it takes a little longer. I can definitely show you another and more efficient way.

Here's the [video](#) of how I usually pen tool. Wish gifs were longer.
