The Start-Up Master Program

This is not an ebook or any other trash selling you snake oil. This is a life changing course.

About Me: I'm a 25 year old Entrepreneur that has been developing Mobile applications for the past eight years.

Currently I am the Founder and CEO of Time Table, Inc but previously I managed an app development agency with over

1900 clients world wide, which I sold in 2015 for \$4.7 Million. Recently with my new company Time Table, we won a

start-up competition with over 800 entrants and secured \$42.5k in winnings. You can watch the video [here](#) and go to our website [here](#).

With Time Table I secured over \$500k in funding in a very short period of time, through my connections and expertise. We are based and working out of NYC and are still hiring. For interest in that, please shoot me a PM.

The Start-Up Master Program is designed for entrepreneurs who want to learn and understand what it takes to start their own business and successfully turn it into a multi-million dollar corporation. The program will focus on key aspects such as:

- Writing a venture capital level business plan.
- How to register your business.
- Raising money for your business.
- Raising money from Venture Capital firms vs Angel Investors.
- Key contacts at venture capital firms.
- How to market your business efficiently without leaking money.
- Cheap office locations powered through co-working.
- Excellent user engagement and retention.
- Setting up bank accounts and lines of credits with the best banks.
- Managing payroll and accounting by yourself.
- How to sell your product.

And much more!

This program is designed for serious Entrepreneurs and is a 4 week intense course WITH testing. Upon completion of your my personal contact information should you need any help with any aspects of your business, this includes but is not limited to Funding and any other questions.

The Schedule for 4 weeks

Week 1-2

- Terminology
- Types of businesses
- Business Plan Formula
- Calculating funding needed
- 2 Tests
- 4 two hours Skype Sessions

Week 2-4

- How to Find Funding
- Types of Funding
- Entering Start-Up competitions and WINNING = free money.
- Equity vs Partnership
- 4 two hours Skype Sessions
- 2 Final Tests
- Completion gift and final lessons.

All the material that you gain from this course is YOURS to keep.

I'm only taking on 5 Students, hereafter it is and will be closed permanently.

The Price = \$899 BTC/ETH/WIRE

Currently 0/5 Enrolled.

This seems pretty cool and something different, I wish you the best of the luck!

Triangle Eye - May 23, 2018, 11:09 am

Interesting BUT do you have any proof of earnings cuz talks dont mean anything lets face it.

Besides that the time table site aint that interesting either, just another simple bootstrap design.

Google also doesn't show ANYTHING regarding your new time table project.

Also dont understand why a multi millionair would sell mentorship for \$800 /spot

I also dont understand why a MULTI MILLIONAIR would spend 8+ hours per customer to earn freaking \$800 xD

allesbaba - May 23, 2018, 11:18 am

As soon as you see that \$4.7 Million you know that you should stay away from this.

yeah ikr ... doesn't even make sense.

as if Multi millionairs spend 8+ hours of their time for a single \$800 lol

Proof of earnings? This was the sale of my company 3 years ago. The proof is in the pudding. My company won 42.5k at the GW Start-up competition, you can watch the presentations I have linked and hear me talk about my company. I'm not going to explain myself for someone who can't understand that himself.

It's a class thing, it's not each individual gets 8 hours, it's 5 people together in a video chat that will get 16 hours in total over a period of 4 weeks. $4500/16=\$281.26$ per hour.

You are a MULTI MILLIONAIRE, by now that 4.7m probably is about 10+ million.

Why are you interested in these low cash amounts lol

You talk as if you think \$200+ /hour is ALOT xDD why if you are a multi millionaire? please explain just odd

and why is your new company using a basic bootstrap template?

You realize you pay tax right? When you sell a company for \$1MM+ You pay 50% tax + Lawyers. I retained around \$3MM and have been living from that doing various different things. You have an unrealistic expectation of monetary growth if you think that \$4.7M in 2015 will be \$10M minimally in 2018.

\$300/hr is what I charge when I do consultancy work for companies such as McKinsey, at a full time job that = \$54,000 /Mo. How much are you currently making if that is not a significant amount?

As to why I want to do this? I like teaching and I would like to do seminars in the future, so this will be a benchmark of my ability to teach someone.
