Look at my list before you mention anime I've seen already

[MAL](#)

I like dark animes, but I need more. Anyone got any dark AF anime they want to share?

I'm super glad to have bumped into a Twice fan, you will love Mirai Nikki I promise!

Danganronpa/Tokyo Ghoul are also worthy mentions, Steins;Gate also sounds like it might be to your liking

I didn't saw neither Saikano or Blood+ on your anime list, which are both very darkish and excellent.

I was actually dissapointed that you had watched the shitty Blood-C and not the glorious Blood+ lol

I thought you were about to redeem yourself by watching those, but no, you had to have Mahou Shoujo Madoka Magica and Monster on your Plan To Watch list. Both are dark and awesome.

Make a note of this: dishonor on you, dishonor on your cow, dishonor on your family and all your

descendants!
